

## Exemplar Harmonization Syntax using DSM 5 criteria for PTSD

\*\*\* Combine equivalent acute stress reactions items from early PTS measures (congruence based on PACT/R expert consensus process)

\*\* Use Tt1-Tt4 item ratings

\*\* RULES FOR THE SYNTAX BELOW:

-- Use earliest available assessment

-- Any positive item = positive composite item, except that rating at Tt1 OVERRIDES rating at Tt2 OVERRIDES rating at Tt3 etc.

\*\*INTRUSIVE\*\*
