

**Request for data from the
Prospective studies of Acute Child Trauma & Recovery (PACT/R) Data Archive**

The PACT/R Data Archive Steering Committee reviews all requests for access to data from the Archive.

NOTE: The PACT/R Data Archive includes only de-identified datasets, but investigators are nonetheless expected to take appropriate precautions to prevent inadvertent identification of individuals whose data is included in the Archive.

Please complete the following information:

1. Specific data elements requested:
2. Inclusion / exclusion criteria for datasets or cases:
3. Research question(s) to be addressed:
4. Investigator's relevant training and experience:

If a trainee, describe supervision arrangement and supervisor's relevant training and experience.

5. Describe measures for data security.

... and sign the following statement:

I agree to utilize data received from the PACT/R Data Archive only to address the research questions identified in this application, and to communicate with the Archive Steering committee about any substantive changes / modifications to these planned analyses.

I agree to acknowledge the PACT/R Data Archive in presentations and publications that result from analyses of these data.

I commit to maintain data security, and to take appropriate precautions to prevent inadvertent identification of individuals whose data is included in the Archive.

I understand that I may not re-release data obtained from the Archive to others.
